In Bob's words: “The goal of every human being is to find and be acknowledged for what one truly is.”

For many people this search for authenticity is a difficult challenge – time, resources, and habit -- get in the way. But this does not have to be. The one thing most people don't know about themselves is that they ALREADY possess the 5 Essentials necessary to live a fulfilling life.”

Endorsements:

- The 5 Essentials begins with a simple premise: don't look at high achievers as outliers, but as kindred spirits. Understand the strategies that worked for them and put them to work for you. You may not end up a Silicon Valley hotshot, but with effort, you can discover your unique self-story and begin to carve out a more meaning-filled life.”
– Sherry Turkle, Professor of the Social Studies of Science & Technology, MIT
- “ In The 5 Essentials, Dr. Bob bottles up his native brilliance and eclectic intellect in a compact volume that is rich with inspiring and actionable insights for all readers. Drawing on his life story, and the stories of others, Dr. Bob presents a compelling framework that will dramatically enhance your experience of what it means to be human.”
– Jeffrey F. Rayport, Consultant to Global Entrepreneurs and Venture Capitalists, Author, and former Harvard Business School professor
